

ABOUT G & M STOR-MORE

G & M Stor-More have been servicing the self storage industry since 1997. G&M Stor-More specialises in the construction of Self Storage facilities right across Sydney metropolitan and regional New South Wales. As members of the Self Storage Association of Australasia as well as the Master Builders Association, G&M Stor-More prides themselves on their outstanding reputation for using quality products and quality workmanship.

"From the inception of our project you have given us a guiding hand in the design and problem solving of our storage facility which has resulted in the success we have realised since opening.

G&M Stor-More have managed the building project of the units in a timely manner which allowed us to open on time. As we have grown and needed more storage units, while we have been trading, you have been able to work harmoniously with our clients to ensure minimal disruptions.

We have greatly appreciated the efforts you have gone to, to ensure deadlines have been met to have new units available leading towards busy periods like Christmas and Easter.

The workmanship and finish of your units have given us the edge we needed as a new storage facility to be able to achieve 90% occupancy quicker than we had planned, which has allowed us to continue expanding our facility."

Perry Theophanous

We'll help you stor-more.
