

Maintenance

The maintenance and repairs of your self storage facility...

- The appearance and condition of your storage facility are a vital aspect of a profitable self storage investment
- Keeping your property clean and well maintained makes it attractive to current and prospective customers
- Wear and tear and breakdowns keep self storage facilities from operating at peak performance
- Every self storage operator knows that any repair, no matter how big or small, if not attended to in a timely manner will affect a facilities ability to operation optimally
- The best maintenance outsourcing solution is from a firm specializing in the self storage industry

Due to the specialized nature of the storage industry in Australia, G&M Stor-More have developed a **maintenance team** that can take the hassle, cost overruns, and delays off your maintenance "to-do" list.

Here are a few of the maintenance services G&M Stor-More offers:

- Storage unit renovations
- Roller door servicing and cleaning
- Roller door rejuvenation
- Swing door servicing and lock adjustments
- Repair and replace damaged internal walls and hallway panels
- Storage unit size conversions and reconfigurations
- Roof and gutter cleaning and maintenance
- Adjust and service PA doors, door closers and lock sets
- Lubricate roller shutters
- All types of painting
- And the list goes on...

We'll help you stor-more.
