

Relocatable Storage Solutions

G & M Stor-More's Relocatable storage buildings provide "INSTANT" storage, as and when you need it.

This allows you to make the most of areas that cannot be permanently built on.

Our standard range is built on a 6m x 2.4m base with 5 standard models available (as shown on our website).

- Turns unused land into "INSTANT" storage
- Ideal for permanent or temporary storage
- Forklift pick up points from both sides
- Slim floor profile
- Buildings can be grouped side by side or back to back, to maximise land use
- All roofs lined with foil to reduce condensation drips
- Standard sizes available or custom built options

We'll help you stor-more.
